Products catalogue

tersaco

We are a Swiss based company developing and marketing products crafted to the needs of small and middle size laboratories worldwide with a focus on biochemistry and POCT. +

Our philosophy

Our philosophy is to provide highest quality products that produce reliable results and give proper insight into the patient's health. Our experienced team serves our partners with full support and cater for their needs in every aspect both technically and knowledgewise. The quality of our reagents and analysers is confirmed everyday by numerous laboratory practitioners all over the world.

Our offer

We provide a wide range of clinical chemistry reagents including both open line and dedicated lines, especially Mindray and Tokyo Boeki analysers.
